

## RAMADAN KAREEM

### Dear Boaters,

In the past month you may have noticed a few new friendly faces around the club - it brings me great pleasure to introduce these new members of the DMYC team in this month's club newsletter. Also, on behalf of the team, may I take this opportunity to wish you and your family Ramadan Kareem!

### SUMMER SERIES @ DMYC

#### Chart Navigation Workshop, June 19th

On June 19th, DMYC partnering with Marine Concept Sea School, ran an informative morning workshop for our boaters on the rudiments of chart navigation and buoyage. The three hour session gave a refresher (always helpful!) on different chart & plotting techniques, recognising the different families of buoys, as well as some useful insights into local navigational dangers. This popular workshop will likely be repeated in the coming months.

#### Fishing Workshop, Date TBA

Luke Chang, mad-keen UAQ fisherman, and oft-contributor to local boating magazines on the subject, will be running a workshop on the tips, tricks, tools and locations to make your next fishing expedition that bit more successful... with luck! Watch this space.

#### Oman & Musandam Cruising Talk, September, Date TBA

For those who have considered voyaging to the Musandam Peninsula, this informal evening talk by an experienced boater who has visited the region should whet your appetite to explore and voyage further afield. Discussing the formalities, as well as joys of visiting the region, this will be a good preparatory talk for a future DMYC rally to this region.
